React (Very proficient),
NEXT.js (Very proficient),
Express.js (Very proficient),
MongoDB (Proficient),
Php (Laravel) (Proficient), **mySQL** (Proficient)

Profile

Task-focused professional with 3+ years of experience in front- and back-end web development.

Proficient with the MERN stack as well as Php and mySQL. Seeking employment as either Front/Back-end or Full stack developer.

Professional Experience

Front-end Developer, *CompleCurat*

2022 | www.complecurat.com

- Developed the client website with the help of front-end components written in React.
- Implemented the company's ideas, with a focus on both B2B and B2C clients and responsive design.
- Responsible for testing and maintenance.
- Assisted the company with deployment possibilities.

Full Stack Developer, *SpotMyNext*

2021 | www.spotmynext.com

- Developed a Single Page Application from beginning to deployment.
- Optimized the database queries thereby reducing page load times.
- Provided effective troubleshooting as well as maintenance.

IT Mandager & Consultant,

GoWork Studenterhjælp ApS

2016 – 2022 | Odense, Denmark

- Designed and developed the company website and order system. Responsible for testing and deployment as well as building the database infrastructure and writing the necessary queries.
- Developed tools to help with invoicing and payroll, built in VBA and Excel.
- Also, as a consultant I have worked with hiring new employees, invoicing and payroll.

Warehouse worker, *Alex Andersen Ølund A/S*

2014 – 2016

Waiter/Bartender, *Hotel Metropolis*

2012 – 2014
